Flatland

A Romance of Many Dimensions

PART I: THIS WORLD

> Home Section 1. Section 2. Section 3. Section 4.

Section 1. Of the Nature of Flatland

I call our world Flatland, not because we call it so, but to make its nature clearer to you, my happy readers, who are privileged to live in Space.

Imagine a vast sheet of paper on which straight Lines, Triangles, Squares, Pemagons, Hexagons, and other figures, instead of remaining fixed in their places, move freely about, on or the surface, but without the power of rising above or sinking below it, very such like madows, only hard and with luminous edges, and you will then have a pretty correct notion of my country and countrymen. Alas, a few years ago, I should have said 'my universe's but now my mind has been opened to higher views of things.

In such a country, you will perceive at once that it is impossible that there should be

Flatland

A Romance of Many Dimensions

PART I: THIS WORLD

Section 1. Of the Nature of Flatland

I call our world Flatland, not because we call it so, but to make its nature clearer to you, my happy readers, who are privileged to live in Space.

Section t. Section t. Section 5. Section 1.

Imagine a vast sheet of paper on which straight
Lines, Triangles, Squares, Platagons, Hexagons,
and other figures, instead of remaining fixed in
their places, move freely about, on or in the
surface, but without the power of rising above or
sinking below it, very much like shadows—only
hard and with luminous edges—and you will then
have a pretty correct notion of my country and
countrymen. Alas, a few years ago, I should have
said "my universe": but now my mind has been
opened to higher views of things.

In such a country you will perceive at once that
